DETAILED ACTION

Claims 3-10 are currently pending and are present for examination.

Applicants' amendments and arguments filed on 10-30-06, have been fully considered and are deemed to be persuasive to overcome the rejections previously applied. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn.

Drawings

Drawings submitted in this application are accepted by the Examiner for examination purposes only.

Allowable Subject Matter

Claims 3-10 are allowed.

The following is an examiner's statement of reasons for allowance: Following a diligent search it was determined that the prior art neither teaches nor suggests a polynucleotide sequence with SEQ ID NO:2 encoding a polypeptide with 5-epimerase-4 reductase activity as claimed in claims 1-10. A reference which was thought to be relevant to the examination of this application which was soon to become available (because of which this instant application was suspended) failed to provide appropriate support for the above claimed polynucleotide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
